

March 9th, 2015 Riga

Our cooperation and experience with WIN Partners during our annual Pan-Baltic Business Seminar was highly satisfactory both in terms of pre-organizational discussions and execution. We are very satisfied with the professional delivery from Valters Gražulis who excels in adopting his message to his audience. The coaching session was well balanced and structured which unfortunately made the 6 hours run by real fast. The mix of interactivity, real life examples and a humble way of approaching serious business aspects made our audience truly appreciate the lecture.

We are satisfied on all levels the cooperation with WIN and Mr. Gražulis and will certainly consider further cooperation's in the future
